

Details, Details, Details... Look Closely and Then Look Again!

Jerry W. Jones, MD FACEP FAAEM

A	
A-V	
V	

This is not a difficult dysrhythmia to diagnose – if you pay attention to the details. This is taken from my new upcoming book, ***Getting Acquainted With Laddergrams: What They Are, What They Do and How They Help Us!***

If you do not know how to laddergram a dysrhythmia, the book will be available on amazon.com in three to four weeks. Otherwise, try your best to diagnose the mechanism behind this rhythm.

I will post my analysis and discussion next Wednesday, August 28.

As a reminder, its not to late to enroll for my ***Masterclass in Advanced Dysrhythmias*** in London, England September 23 – 26, 2024. It is very accessible for those of you who live in Europe, North Africa or the Middle East. It's also a great opportunity for those who live in North and South America to advance your ECG interpretation skills as well as enjoy one of the world's greatest cities! And you will learn to laddergram dysrhythmias in class!

Come join us in London and be a PARTICIPANT... never just an audience!

Flexible. Casual. Advanced.

ONCE MORE! BY POPULAR DEMAND!

JOIN US FOR THE WORLD'S ONLY
ADVANCED ECG INTERPRETATION
COURSE IN WHICH EVERYONE IS AN
ACTIVE PARTICIPANT!

The Masterclass in Advanced Electrocardiography

November 4 - 7, 2024
Houston, Texas

CLASSES ARE SMALL! MAXIMUM OF JUST TWENTY (20) PARTICIPANTS!

Smaller classes means even more opportunity for active participation in the interpretation of complex ECGs during class while being guided and prompted by Dr. Jones. You learn best by DOING.. not just OBSERVING!

ASK QUESTIONS AT ANY TIME! NO NEED TO WAIT UNTIL THE END OF A PRESENTATION!.

The atmosphere is casual and informal. Participants ask questions at any time. No need to wait until the end of a presentation. Dr. Jones is also available during breaks and toward the end of the lunch hour for more individual attention.

A TRULY ADVANCED CURRICULUM! THIS IS NOT A REVIEW OF BASIC MATERIAL!

This is not a beginners' course and it is NOT a review course. Participants should have an intermediate level of ECG reading skill to benefit fully from the advanced curriculum. You WILL greatly increase your ECG interpretation skill!

Here is what you will receive...

- AMA PRA Category 1 Credit
- Course Manual
- ECG Calipers
- Magnifying Lens
- Transparent Straight-edge
- Illustrations and Diagrams
- Casual Atmosphere
- Informal, flexible
- Active Participation
- Sorry... no group discounts.

Getting Acquainted With Ischemia and Infarction

Ischemia is NOT an Infarction!

Jerry W. Jones, MD FACEP FAAEM

Medicus of Houston is excited to announce the newest addition to the “Getting Acquainted With...” series –

Getting Acquainted With Ischemia and Infarction.

Cardiology Fellows Learn all the background information you need to know about action potentials, ion currents and the Hexaxial Reference Grid. Plus, develop the expertise in advanced ECG interpretation your residency never taught you.

Residents Are you aware that by using the STEMI paradigm you are missing up to 25% - *or more!* – of complete coronary occlusions? Develop the skills necessary for the new OMI paradigm. *It's coming!*

RNs, PAs, EMT-Ps You've gained greater responsibilities and more opportunities to make an even greater impact in medical care!. Increase your expertise in the interpretation of ECGs presenting with ischemia and infarction and move on up the ladder!
